

Maintenance Products for motorcycles

Emotion Chain Grease

A long-lasting, polymer-based lubricating grease formulated with mineral oil and containing adhesion and extreme-pressure additives. The product is available in an aerosol format.

> Use

- Product specifically developed for external lubrication of motorcycle transmission chains.
- Shake the container before use and spray directly onto the object to be lubricated.

> Benefits

- High adhesion.
- Prolongs the service life of the transmission chains.
- Provides protection against corrosion and rust formation.
- Excellent penetration capacity for effective lubrication.

> Physical and chemical properties

Characteristic	Units	Method	Emotion Chain Grease
Density at 20°C	kg/l	ASTM D 4052	0.890
Flash Point	°C	ASTM D 92	>260
Color	-	Visual	Amber
Appearance	-	Visual	Liquid

> Health & safety and environment

A Material Safety Data Sheet providing information on product hazards, handling precautions, first aid measures, and relevant environmental data is available for this product as per applicable legislation.
